

The two directories of the People's Food and Farming Alliance PFFA and People's Health Alliance PHA provide direct connection to a number of services eg farmers, farmer/home growing suppliers, tool repairers, artisanal food producers, wholefood suppliers and diverse range of health care providers. Both include a growing library of educational links available to users.

Established over 2 years and now in 30 countries, we are a local chapter launched in Malta April 2024 & Gozo June 2024. This is voluntary, active community work and there is no charge. PFFA and PHA are supportive community tools, a framework for community efforts, to be nurtured and developed further.

### **PFFA Malta - The People's Food and Farming Alliance**

Local food sovereignty and security, for The People, by The People
